

ADRIAN DAVIS

DATA ANALYST | BUSINESS INTELLIGENCE | REPORTING AND DATA VALIDATION

Leesville, Louisiana | (337) 718-3245 | adrian.dean.davis@gmail.com

PROFESSIONAL SUMMARY

Data Analyst with more than four years of experience translating operational questions into structured analysis, accurate reports, dashboards, and decision-ready recommendations for U.S. Army leaders. Advanced Microsoft Excel and Power Apps experience, hands-on Tableau dashboard development, and foundational SQL training. Proven ability to validate source data, investigate anomalies, maintain analytical documentation, interpret trends, communicate findings clearly, and protect sensitive information in high-tempo environments.

CORE SKILLS

Analysis and Business Intelligence: Data analysis, business intelligence, trend interpretation, dashboard development, KPI reporting, data visualization, ad hoc analysis

Data Quality and Documentation: Data validation, quality assurance, source reconciliation, anomaly investigation, data completeness, definitions, assumptions, standard operating procedures

Technical Tools: Advanced Microsoft Excel, Microsoft Power Apps, Tableau (hands-on), SQL (foundational), Streamlit, Supabase, Microsoft PowerPoint, Microsoft Teams, LT2

Stakeholder and Process Management: Requirements gathering, business-question translation, stakeholder communication, process improvement, training, independent workload management, confidentiality

PROFESSIONAL EXPERIENCE

Data Analyst | Katmai Government Services

November 2024 to Present

Joint Readiness Training Center, Fort Polk, Louisiana

- Translate operational questions from Army leaders and field teams into structured analysis, dashboards, after-action products, and concise recommendations used during training reviews.
- Build and maintain advanced Excel models, standardized reports, and Power Apps dashboard views that consolidate real-time field data and improve decision visibility.
- Validate information from multiple field sources, investigate missing or inconsistent records, and coordinate corrections before data is included in leadership reporting.
- Maintain and enhance a field data-entry application with required-field logic, standardized definitions, and workflow controls that reduce incomplete submissions and improve reporting consistency.
- Develop and document collection procedures, assumptions, and analytical workflows; shared the standardized approach with six peer training analysis teams.
- Communicate findings with senior leaders and field users while managing changing requirements, tight timelines, and sensitive operational information.

Data Analyst | Valiant Integrated Services

February 2022 to November 2024

Joint Readiness Training Center, Louisiana

- Collected, analyzed, and compiled U.S. Army training data into accurate, decision-ready products used in after-action reviews with rotational training units.
- Performed quality-assurance reviews, reconciled gaps across source information, and supported assistant analysts in correcting incomplete or conflicting records before final reporting.
- Organized complex observations into clear themes, trends, and supporting evidence for technical and nontechnical audiences.
- Created and maintained sensitive and classified documentation in accordance with government regulations, security policies, and records-handling requirements.

Assistant Data Analyst | Katmai Government Services

October 2021 to February 2022

Joint Readiness Training Center, Louisiana

- Tracked, analyzed, and compiled operational data using Microsoft Office and the LT2 system to support Joint Readiness Training Center reporting.
- Collected field inputs through radio communications and multiple information sources, organized the data in a consistent structure, and transferred validated records to the lead analyst.
- Maintained reporting files, checked submissions for completeness, and coordinated with field personnel to resolve missing information.

SELECTED DATA ANALYTICS PROJECTS

Tableau Finance Performance Dashboard | Independent Project

2026

Synthetic company finance dataset

- Built an interactive Tableau dashboard with KPI cards and calculated measures for net sales, gross profit, operating profit, margins, and revenue variance.
- Created monthly budget comparisons, department profitability views, product-line margin analysis, customer-segment collection-risk views, and filters for leadership-style exploration.

Streamlit and Supabase Analytics Tracker | Independent Project

2026

Web application development

- Built and continue to maintain a database-backed web application with authenticated user access, structured data entry, validation rules, saved records, dashboards, and spreadsheet exports.
- Investigated data-flow and calculation issues across forms, database tables, and visualizations to improve reliability and ensure recorded activity appears correctly in reports.

MILITARY LEADERSHIP EXPERIENCE

Military Police, Team Leader, and Protective Service Agent | U.S. Army

November 2015 to November 2021

Multiple locations, including Iraq

- Supervised six patrols during 12-hour shifts, allocated resources, coordinated incident response, and reviewed casework for completeness and accuracy.
- Led access-control and interagency coordination efforts that contributed to zero unresolved unauthorized-access incidents.
- Protected the Combined Joint Task Force commander and staff in Iraq and coordinated secure movements for 12 months without incident, delay, or cancellation.
- Managed sensitive equipment valued at more than \$1.5 million without loss or damage and trained personnel on operational procedures, safety, and professional standards.

EDUCATION

Bachelor of Science, Personal Finance and Wealth Management

Purdue Global University | Expected October 2026 | GPA: 3.9

DATA ANALYTICS CERTIFICATIONS

- Ask Questions to Make Data-Driven Decisions | Google | July 2026
- Foundations: Data, Data, Everywhere | Google | July 2026
- What Is Data Science? | IBM | July 2026
- Introduction to Data Analytics | IBM | July 2026

MILITARY TRAINING AND AWARDS

Training: Basic Leader Course; Protective Services Specialist Course; Military Police Academy

Awards: Army Commendation Medal (two awards); Army Achievement Medal; Army Good Conduct Medal; Certificate of Achievement
